Project Checklist

	🔴 Needs Work	🔵 Meets Expectations	🟢 Exceeds Expectations
Project set up correctly using Create React App	• Warnings or errors in console about unused/missing assets.	• No warnings or errors in console about unused/missing assets. • Running npm start successfully launches the app.	• N/A
UI Components	• App is not modular/broken up into components.	• App is broken up into components, for example: ◦ App ◦ Nav ◦ Gallery or PhotoContainer ◦ GalleryItem or Photo ◦ SearchForm ◦ Etc.	• N/A
Matching the mockups	• Provided CSS is not used and/or significant layout issues are keeping the important aspects of the app from generally resembling the mockups.	• Provided CSS is used and the important aspects of the app generally resemble the mockups.	• N/A
Routing	• Routing is not implemented. • URLs do not correctly match routes. • Clicking a nav link does not navigate user to new route and load new data.	• React Router properly implemented. • URLs correctly match routes. • Clicking a nav link navigates user to new route and loads new data.	• App includes a 404-like error route that displays when a URL path does not match an existing route.

Data fetching	• Incorrectly using Flickr API correctly: temp API Keys and wrong Photo source URLs.	• Uses Flickr API correctly: API Keys and proper Photo source URLs.	• App displays a loading indicator each time the app fetches new data on at least the search route.
	• Console produces data fetching errors.	• Data fetched from a "container" component that passes data down to presentation component via props.	
	• Data not fetched from a "container" component.		
Displaying Data	• Errors displaying data.	• No console errors or warnings regarding unique "key" props.	• N/A
	• Images do not have unique keys.	• Key props passed to images.	
	• Console warnings regarding unique "key" props.		
Search field	• No search field displayed in the "Search" route.	• Submitting search data returns & displays results.	• If no matches are found by the search, the app includes a message to tell the user there are no matches.
	• Submitting search data does not return/display results.
